## Challenges and Opportunities at the Dawn of a New Decade

Tuesday, May 18

Hyatt Regency Capitol Hill

Washington, DC

For 25 years, *Women in Aerospace* has been dedicated to expanding women's opportunities for leadership and increasing their visibility in the aerospace community. Our membership - *women and men* - shares an interest in a broad spectrum of aerospace issues including human space flight, aviation, remote sensing, satellite communications, robotic space exploration, and the policy issues surrounding these fields.

We are proud to present WIA's first-ever, day-long conference on topics of importance to women and to the aerospace industry world wide. For more information including registration, the career fair and sponsorship, please visit
